

Job opening at aChord Center - Research Associate

aChord Center, a part of Magid Institute at the Hebrew University, is seeking a research associate for conducting a multidisciplinary study on international peace. The position is for five months, with a tentative possibility of extension, and is between half-time and full-time.

aChord is a social-academic organization that seeks to promote equal, tolerant, and respectful intergroup relations within the Israeli society and between Israel and its neighbors by using cutting-edge research from the social sciences. The current project aggregates insights on successful peace processes to create an empirically based model that will advance Israeli-Palestinian Peace. The research associate will be a part of a small and dedicated team of researchers.

Main Responsibilities:

- Conducting a systematic review of scholarly resources (journal articles, book chapters, and books) about peace processes and agreements. The work includes coding approximately 1,000 resources based on pre-defined criteria.
- Writing and presenting chapters of the report about the aggregated insights from the review.

Qualifications:

- Interest in cross-disciplinary research on international peace and conflict.
- Ability and motivation to read and code a large volume of academic publications on peace and conflict.
- High proficiency in English is a prerequisite (all research resources and communications are in English).
- Master's degree in the social sciences. Research-oriented MA students are also eligible.

Skills:

- Ability to work independently.
- Diligent and meticulous
- Ability to work under tight schedules.
- Identifies with aChord's values

Scope:

- Between 50% and full-time position, to be determined by aChord and the applicant.
- Duration: Five months, with a tentative possibility of extension.
- Immediate recruitment.
- Location: Hotzut Shefayim, Sharon District. The employee will be expected to work from our offices at least once a week. Otherwise, the work can be done remotely.

Interested? Please send your CV and a short statement in English about your motivation and qualifications for this position to cvachord@gmail.com. In the statement, detail your availability for the next five months and your preference for the scope of the position (between 50% and full time). Please mention "application for research associate" in the subject of the email.
